

alta™ residential

features & benefits

Alta is a **water-based** technology that imparts permanent repellency to virtually any kind of fabric without impacting its softness or breathability.

- ✔ Forms molecular bond to fibers and will **not** migrate or “off-gas.”
- ✔ High repellency to liquid and oil based stains and spills.
- ✔ Exceptional cleanability, reducing the need for chemical cleaning agents.
- ✔ Non-allergenic and safe to be next to the skin; core technology similar to “performance fabric” used for leading apparel and sportswear.
- ✔ Odorless and completely imperceptible to the eye and hand.
- ✔ Free from any solvents or VOCs (volatile organic compounds), PFOS, PFOA, formaldehyde, heavy metals or phthalates.
- ✔ Passes EPA and Cal Prop 65 environmental standards (California, United States).

cleaning & care guidelines

Fabrics treated with Alta™ are exceptionally easy to clean and maintain.

1. Liquid spills: Don't wait!

Blot liquid quickly and gently with a clean, dry, absorbent cloth. If liquid remains, continue with gentle blotting. Gently remove any soil or debris from the surface.

No rinsing needed.

2. If any residual spot remains: Flush liberally with warm water and blot with a clean, dry, absorbent cloth. Change blotting cloth surface frequently, until spot is gone. (Avoid brushing which can spread the stain!) Repeat process until spot has been removed. Finish with final warm water rinse and blot.

3. For difficult or stubborn stains: Mix 2-3 drops of any mild laundry detergent with 1 cup of water and apply to soiled area. Gently work solution into the area, wait several seconds and blot the spot with a clean, dry, absorbent cloth. Repeat until spot has been completely removed. Rinse thoroughly with warm water and blot to remove any soap residue. (Be thorough here: soap not rinsed away in the fabric can cause a recurring stain!)
