

RIALTO

Rialto is a patterned version of Murano, a linen fabric with hints of silk, on double width, woven on a jacquard loom in a binding which gives the fabric an elegant surface with a lot of texture. It has a beautiful drape. The pattern in white on a beige background creates a checked pattern with white stripes from selvedge to selvedge and a beige structural stripe that runs in the other direction on one side, while it on the other side gets inverted and becomes white.

The fabric is dense but when the light is filtered through the natural density of the threads will occur more giving a vivid surface.

This article may stretch depending on the natural character of the fiber.

Please be aware that screen colours, printer colours and fabric dye batches may all vary.
